Fucking in the car, that s the only spot

With a view of the moon and you in the passenger seat

Would you recognize me or would you call me out?

I know it s been a while but I m still me

Am **Bm** **Am** **Bm**
Bm

But honestly it s been so long that I wouldn t be offended if you didn t even feel me

C
There s a gap now

Bm **Am**
Big enough to make us forget how we felt in the past now

Bm
Everything moving so fast now

C
Damn, I miss things going slower

Bm
I miss us being closer

Am **Bm**
I mean I got a good thing but I feel like I don t even really know her

C
This a new life

C
I didn t do you right

Bm **Am**
But I got a second chance to improve my appreciation

Am
I should take it

Bm
I m sorry that I ever got jaded (for real)

[Pre-Chorus]

It s been way too long
