If All Should Fail
Rusty Cage

 [Intro]

Bm   Bm

[Verse 1]

Bm   **D**
   I said Iâ€™m gonna spend my time alone
                        G   **D**   **F#**
Cause it ainâ€™t worth trying to find that loverâ€™s soul
Bm   **D**
   I said itâ€™s better searching in myself
                       G
Cause I couldnâ€™t give away my love,
                        Gm
Or spend my time with anybody else
              A   **A7**
But oh, sometimes I believe I can make the change,
F#   **F#7**
   Oh Lord, are you feeling the same way

[Verse 2]

Bm   **D**
   I said I better change my sinking thoughts
                        G   **D**   **F#**
Before they pull me under to drown out everything Iâ€™ve got
Bm   **D**
   And yet I find comfort in despair
                        G
Cause Iâ€™ve wallowed in it far too long, when things go wrong
    Gm
It feels good not to care
              A   **A7**
And oh, sometimes I believe I can make the change
F#   **F#7**
   Good God, are you feeling the same way

[Chorus]

D   **A**   **Bm**
   Cause I would do it for her, if sheâ€™d do it for me
            G   **A**   **D**
If this is where we ought to be

```
            A                   Bm
I am only a man, my sins of pride
                G       F#      Bm
are swallowed down here by your side

[Verse 3]

                                  D
Instead Iâ€™m gonna praise my stubborn heart
                G                 D                     F#
But I feel like dying, and I know Iâ€™m only at the start
Bm                            D
   And as the days go passing by
                 G
Well that window begins to close, and so it shows
      Gm
When months turn into years, well I try
     A                    A7
And oh, I believe I can make the change
F#                   F#7
   Good God, are you feeling the same way

[Final Chorus]

D                    A                       Bm
   I would do it for her, if sheâ€™d do it for me
          G       A        D
If this is where we ought to be
          A              Bm
I am only a man, my sins of pride
            G       A       D
are swallowed down here by your side
          A                 Bm
If all should fail, so often does
          G       A        D
Of lack of passion and lack of trust
                  A                       Bm
But I would do it for her if sheâ€™d do it for me
          G      F#      Bm
If this is where we ought to be.
