The Knife Game Song - Rusty Cage  
Capo: 5

[Verse 1]

**G C**

There is an old tradition

**G**

A game we all can play

**C**

You start by getting liquored up and sharpening your blade

You take a shot of whiskey

**F**

You grab your knife and pray

**C**

And spread apart your fingers

**G**

**C**

And this is what you say

[Chorus]

**G C**

**G**

Oh, I have all my fingers, the knife goes chop chop chop.

**C**

If I miss the spaces in between, my fingers will come off.

**G**

And if I hit my fingers, blood will soon come out.

**C**

But all the same I play this game, cause that s what it s all about.

[Verse 2]

**C**

No, you can t use a pencil

**G**

You can not use a pen

**C**

The only way is with a knife when danger is your friend

And some may call it stupid

**F**

Some may call it dumb

**C**

But all the same we play this game

**G**

**C**

Because it s so damn fun

[Chorus]

**G C**

**G**

Oh, I have all my fingers, the knife goes chop chop chop.

**C**

If I miss the spaces in between, my fingers will come off.

**G**

And if I hit my fingers, the blood will soon come out.

**C**

But all the same I play this game, cause that s what it s all about.

Oh, CHOP CHOP CHOP CHOP CHOP CHOP CHOP

**G**

I m picking up the speed,

**C**

and If I hit my fingers then my hand will start to bleed.
