

**Colder**  
**Rusty Clanton**

Rusty will occasionally hammer on parts of a chord

play the root note(a C) and then this little riff:

(Riff)

```

e|-----|
B|-----|
G|-----0--2--0-----|
D|-----0--2-----2--0----|
A|--3-----3--|
E|-----|

[Verse]

```

C*                               C7*
you re only a phone call away,
                       F
they re all going inside
C                               G
and i barely noticed the grey block the sun from my eyes
C                               C7
you feel only as far as the mercury bar
      F                               Fm
and that sucker s not close to a climb
C           Am           F    G7           (Riff)
i m reduced into cinders each time i remember you re mine

```

[Chorus]

```

                       F
it s been getting colder in nashville
                               C

                        G7
I kick the covers when i m sleeping
                               (Riff)
can t keep my jacket off the floor
                        F
soon i know the frost will be biting
                               C           C7
but i don t plan on getting bit
                               F
yeah, it s been getting cold in nashville
      G                               C           C/B Am           C/B (Riff)
but i linger on your loving every chance i get
