Dirty Rain

Dirty Rain - Ryan Adams
[Verse 1]
Last time I was here it was raining
It ain't raining anymore
Streets were drowning and the water's laming
All the ruins washed ashore
                                                        G#m
        C#m
Now I am here just looking through the rubble
Try to find out who we were
Last time I was here it was raining
It ain't raining anymore
(same chords as verse 1)
Last time I was here you were waiting
You're not waiting anymore
The window's broke and the smoke's escaping
The books scattered across the floor
And the churchbells are ringing through the sirens
Your coat was full of bulletholes
Last time I was here you were waiting
You're not waiting anymore
[Chorus]
Α
So
Α
May the wind blow
                                                E â€" base note run

[Verse 2]
(same as verse 1)

Last time I was here it was raining
Like you have never seen it rain
And your eyes were filled with terror
And tears from the gasoline
As the stars exloding with gunfire
I saw you smiling just before
Last time I was here you were crying
You ain't crying anymore

[Chorus]
