Night Lights

Lyrics - Answeringbell.com

by Michael George Drexler

----Capo 3----

Intro:

G F G C

C

Verse 1:

C **G**
Leaving on the subway for your home last night
F **G**
I was paying for the ride with my money
F **G** **F** **C**
Standing in the station, I was losing my patience and my mind
C **G**
All the liquor and the women and the time in between
F **G**
And the narcotic haze I d been feeling
F **G** **F** **C**
Shoulda never come between us but I m so glad you re back in my life

Chorus:

F **C**
When I m watching as the lights of the city fade
F **C**
Sitting by the window on the seat of the train
F **C**
Saddened with the burden of a guessing game
C (G) **Am**
Which one is yours ?
G **F** **G** **C**
Just leave the lights off then next time I m turning em on

C

Verse 2:

Well I was fumbling for a quarter, hoping it wasn't over
I was probably running out of money
Wasn't over then and I guess that it ain't over now
Well I hit the city I was dead on my feet
Lying in your arms with my head on the street
Tearing up my wallet and the bars where we used to meet

Chorus:

When I'm watching as the lights of the city fade
Sitting by the window on the seat of the train
Saddened with the burden of a guessing game
Which one is yours?
Just leave the lights off then next time I'm turning 'em on

Instrumental: (Chorus)
