When The Stars Go Blue Ryan Adams

Tabbed by Peter Cook

Its actually from the Coors/Bono version, but it works: Here is the bass tab for the verse, don t know the rest.

Standard tunning.

Thats really all it is. My bass might be out of tune, so it might be down fret or two, but thats the basic idea. Fool around with the rhythm till its right, and you got a great bass line!

Rock On, Pete.
