Verse and Chorus: **E, G#, A**

honey, you re golden  
anybody coulda told you that  
mm mm saccharine  
you re pure you re earth  
giving life to me  
like a baby tree in the ground  
i thought i found, i thought i found an angel

you glow a hazel, hazel  
shade of love when i see you  
you glow a nice hazel love  
you shimmer shimmer hazel love

honey, you re a star  
anybody coulda wished on you  
but i had my wish come true  
come true like you were the star crashing down  
down down on earth  
making life complete  
just you and i  
ever since you came down from up high

you glow a hazel, hazel  
shade of love when i see you  
you glow a nice hazel love  
you shimmer shimmer hazel love
