Fun song by Bingham.

The verse is really just a C chord strummed with different voicings, but I sometimes do this alternating C - F pattern. It's your decision if you want to do basically a C(var.)/C/Cadd9/C pattern (explained in the intro) or what I've got for the verse.

Intro: **C** (X32013)- **C** (X32010) - **Cadd9** (X32030) - **C** (X32010)  
 ~~~ You are basically playing a C chord and walking down the E and B strings

Verse:

C F  
Take me to see the voodoo queen,  
C  
Let her put a spell on me,  
C F  
A little bit of change will ease my pain  
C  
Gonna set a young man free.

Chorus :

**Am**                      **G**                      **F**            **C**  
Cause I've been down through your hometown  
**Am**                      **G**                      **F**            **C**  
And all across your distant land.  
**Am**                      **G**                 **F**            **C**  
One thing's for sure, honey I'll be gone,  
**Am**                      **G**                      **F**            **C**  
Tell my mother I miss her so.

Take me to France and watch me dance,  
Let me drink that wine,  
Spinning around a dark haired girl,  
Having us a good ol' time.

Chorus: repeat

When you can the medicine man,  
Will let a feather set me free,  
Out on the range outrunning them trains,  
You re never gonna see me leave

Repeat Chorus several times

Repeat **Am** - **G** - **F** - **C** for the rest of the song.
