Fun song by Bingham.

The verse is really just a C chord strummed with different voicings, but I sometimes do this alternating C - F pattern. It s your decision if you want to do basically a C(var.)/C/Cadd9/C pattern (explained in the intro) or what I ve got for the verse.

Intro: **D** (X32013)- **D** (X32010) - **Dadd9** (X32030) - **D** (X32010)

~~~ You are basically playing a C chord and walking down the E and B strings

Verse:

**D**                                 **G**  
Take me to see the voodoo queen,  
**D**  
Let her put a spell on me,  
**D**                                                 **G**  
A little bit of change will ease my pain  
**D**  
Gonna set a young man free.

Chorus:

**Bm**                                 **A**                                 **G**     **D**  
Cause I ve been down through your hometown  
**Bm**                 **A**                                 **G**     **D**  
And all across your distant land.  
**Bm**                                 **A**     **G**     **D**  
One things for sure, honey I ll be gone,  
**Bm**                                 **A**                                 **G**     **D**  
Tell my mother I miss her so.

Take me to France and watch me dance,  
Let me drink that wine,  
Spinning around a dark haired girl,  
Having us a good ol time.

Chorus: repeat

When you can the medicine man,  
Will let a feather set me free,  
Out on the range outrunning them trains,  
You re never gonna see me leave

Repeat Chorus several times

Repeat **Bm** - **A** - **G** - **D** for the rest of the song.
