NEW YORK TO CALIFORNIA  
capo 5th Fret

**G, Em, Am, D**

Oh, I m dreaming  
About bringing you a rose  
I ll be outside of your office  
In my finest clothes  
But when I wake up  
I m where the sun don t set  
When every day is hard to say  
How long til we kiss again?

**(C, G) x4 Em, D**

New york to california  
New york so hard to stay  
New York To California  
New York to you one day  
Someday I ll be leaving  
Someday s not far away  
New York to California  
Today will be that day

Well oh I m dreaming  
About taking you out  
I ll take you to your favorite place  
that we can rave about  
And when the sun falls  
I ll keep you in my arms  
I ll hold cause were meant to be  
Always in my memory

**BRIDGE G, Em, C, D**

And won t you come here?  
I need you badly  
I ve been setting aside all this time  
For you to come see me  
If I could come there  
I d be so happy  
I d be at home with you  
Never blue  
As long as we re to stay
