

Life Left To Go
Safetysuit

Capo 6. Sorry if the chords below aren't named correctly but I gave you what the tab for reference. This is my best shot at it. The capo is set at 6 for my personal vocal and not to match up with the song itself. Move it wherever you like it all sounds good, the higher you have it sounds a bit more like the song (the song itself doesn't have bass to it). Thanks for playing!

EADGBE

C#m = 046600

E = 022100

Asus = 002200

C#m

Sometimes the edge serves
As more than a friend

E

Than you thought it would be

C#m

And the pages you write
In your journal each night

E

Are your only release

C#m

And the mask you put on
It's like words in a song

E

But there's more to be seen

C#m

And the failures you see

Asus

E

Don't seem failures to me here at all

Asus

E

Oh I'm begging you no

Asus

E

There's more life left to go

Asus

E

Oh I'm begging you please

Asus

E

Cause I don't want you to leave

C#m

Alone as you walk

Through a crowd and its awkward

E

Like nobody sees

C#m

And you can't help but wonder

E

Would anyone come after you

If you'd leave

C#m

So a pain grows inside

And a fear comes alive

E

Like you'll never be free

C#m

But there's no pain you feel

Asus

E

That I know love can't heal here at all

Asus

E

Oh I'm begging you no

Asus

E

There's more life left to go

Asus

E

Oh I'm begging you please

Asus

E

Cause I don't want you to leave

Asus

To leave me here on my own

E

There's nothing to run from

Asus

E

Oh There's nothing but fear inside you

Asus

E

Oh I just hope I can find you

C#m

Asus

E

And tell you that I know you'll smile again

Asus

E

Oh I'm begging you no

Asus

E

There's more life left to go

Asus

E

Oh I'm begging you please

Asus

E

Cause I don't want you to leave
