

**Bc Orienteering  
Said the Whale**

**A**  
You re taken by the woods even though you re aware of the

**F**  
Slippery cliffs and the big black bears and the

**C**  
Salal snares taller than yourself

**E**  
Ferns growing as thick as the trees

**F**  
You re looking for a flag at the top of the hill

**E**  
It s a race against the light

**A#/Bb** **F**  
And one false step could mean staying the night

**E**  
Thats why you should never travel alone

**F** **G** **C**  
You should never you should never travel alone

**E** **F** **G** **C**  
And you know that one false step and you might not make it home.

The rest of the song goes much like that, hope it helps!
