

The Real Of It
Said the Whale

the whole song is just:

G D C G D

thats how they play it in the edie hats video

here are the lyrics:

G D
I think about you all the time

C G D
I know you ll be alright

But I can t stop thinking what you re thinking now
Are we still two of a kind?
Was everything we ever said to each other a lie
And every moment we spent
To discover the truth was in front of our eyes

I hold my breath and count to ten
I smile a little and hold it in
But I can't stop breathing
My heart keeps beating on
As it will for a long time now
