

How To Quit
Sam Phillips

(lyrics are my best guess)

1/2 step down

A **Ab7**

I was broken when you got me

A **C#m** **F#m**
with holes that would let the light through

Bm **E**
Red smoke and sequins and invisible floor

Faith is running to the sound of water
Blind man singing in the footlights

Bm **E** **C#m** **F#m**
Torn cut and talon, sparks from the lucky guess

F **A** **F#m** **B**
Camera can't find the eye, officially astray

F **A** **F#m** **B** **Dm**
When no one's listening i have so much to say

I thought I knew how to quit
dream of the memory we started
stockings on the rooftop, falling innocence

living on edge, desire reverie
gravity pulls our lives down
holding on to change, i want to walk the deep

can't get free from freedom when i refuse to choose
the walls go with me as i leave my fate to lose

A -- F#m -- F -- A -- Dm
