**D**

Honey don t point that gun at me

**G**

**D**

you know I only want to be your friend

why don t you try and get some sleep

**G**

**D**

I swear I ll never come here again

but wont you shed some light on me

**G**

**D**

tell me baby, who do you see?

**G**

this was a land of liberty and now it s closing

**D**

it s closing in on me

**F#m**

I m without a map

**Bm**

I m walking into a trap

**G**

**D**

and there s a white flag on the wind

**F#m**

**B**

I surrender to the very mention of you

**G**

**D**

I hope I get to see you again

**D**

All the time I m wasting, all the dreams I m chasing

**G**

**D**

are leaving me behind

all the roads I m facing, all the days erasing

**G**

**D**

well I just about lose my mind

I woke up this morning, the idea was forming

**G**

**D**

that I m always on the losing side

but I never believed in resurrection

**G**

so I just lay down

**D**

lay down and cried

**F#m**

I m without a map

**Bm**

I m walking into a trap

**G**

**D**

and there s a white flag on the wind

**F#m**

**Bm**

I surrender to the very mention of you

**G**

**D**

I hope I get to see you again

**F#m**

**Bm**

and when I m alone laying up all night

**G**

**D**

till all the darkness is defeated

**F#m**

**B**

and for just one moment everything was right

**G**

**D**

it was all I ever needed

**D**

Honey don t point that gun at me

**G**

**D**

you know I only want to be your friend

why don t you try and get some sleep

**G**

**D**

I swear I ll never come here again

but wont you shed some light on me
