Words & Fire  
Sam Roberts  
Album: Love at the End of the World

Capo 6

**D**  
These words don't come easy

They spit from my lips  
                  **A**                  **Bm**  
But then we never had it easy  
          **D**                  **G**          **A**          **D**  
It slipped from our fingertips

**D**  
When we met, you laughed at me

And stole my last cigarette  
                  **A**                  **Bm**  
Said you wanted to share a past with me  
          **D**                  **G**          **A**  
That tomorrow's the day to forget  
**A**  
And you said

(Chorus)  
**D**                                  **G\***      **D**  
Just give me a reason to carry on  
      **A4**      **D**  
To carry on  
**D**                                  **G\***      **D**  
Just give me a reason to carry on  
      **A**      **D**  
To carry on

**D**  
Now I've come unhinged  
  
I'm a door in a frame  
                  **A**                  **Bm**  
Well I'm never quite closed  
                  **D**          **G**          **A7**  
But I ain't open to change

**D**

So my knuckles are bruised

From knocking on wood

**A** **Bm**

It s a trick that I ve used

**D** **G** **A**

Perhaps more than I should

**A**

And I said

Chorus

**Em** **Bm**

Cause a heart is just a heart

**D** **G**

It can break and fall apart

**D** **G**

It can bleed and stop and start

**D** **A**

Cause a heart is just a heart

**Em** **D** **A**

Ooooh....Ooooh....Ooooh

**D** **G** **D**

Ooooh....Ooooh....Ooooh

**D**

Mix your words with fire

I ll let them burn me down

**A** **Bm**

Let them ring in the air

**D** **G** **A**

Like the bells of an old mining town

Chorus (repeat to end)
