We watched the sun go down and then the moon comes out  
Ain t pictures with your hand  
I chase you I m your biggest fan

Running so far away so far away [x2]

Repeat same chords rest of the song

[Verse]

My mind is black and blue  
It keeps pictures of you  
Now I know why

You moved away from here  
Towards another hemisphere  
And all I want to be is in your company  
I made a mixed tape  
With all the songs that you hate  
Cant read your mind I give up this time

[Chorus]

Who s gonna catch you now who s gonna catch you now  
Running so far away so far away [x2]

Oooooh oooh ohhh oooh oooh  
Oooooh oooh ohhh oooh oooh

[Verse]

I heard your voice today  
But we last spoke in may  
I still miss you  
Now you re a ghost a sea  
Drifting peacefully  
You ll never come back to me  
I read your eulogy

[Chorus]

Who s gonna catch you now who s gonna catch you now  
Running so far away so far away [x5]
