D

Running so far away so far away [x2]

Repeat same chords rest of the song

[Verse]

My mind is black and blue
It keeps pictures of you
Now I know why

You moved away from here
Towards another hemisphere
And all I want to be is in your company
I made a mixed tape
With all the songs that you hate
Cant read your mind I give up this time

[Chorus]

Who s gonna catch you now who s gonna catch you now
Running so far away so far away [x2]

Oooooh ooh ohhh ooh ooh
Oooooh ooh ohhh ooh ooh

[Verse]

I heard your voice today
But we last spoke in may
I still miss you
Now you re a ghost a sea
Drifting peacefully
You ll never come back to me
I read your eulogy

[Chorus]

Who s gonna catch you now who s gonna catch you now
Running so far away so far away [x5]
