VERSE 1:
Ε
If weakness is a wound
That no one wants to speak of
Then cool is just how far we have to fall
        В
I am not immune
I only want to be loved
But I feel safe behind the firewall
Can I lose my need to impress
            E B
If you want the truth, I need to confess
E B F#
I m not alright
             В

Bring me to my weakness
Till everything I hide behind is gone
And when I m open wide
With nothing left to cling to
