Little Black Dress
Sara Bareilles

[Intro] **G#** **Cm7**

G#   **Cm7**
Okay I can see it now it s all the same thing
Just different wrapping around it
F#
No need to soften your words
        C#   **C#m**
They re still gonna hurt, So don t pull punches

G#   **Cm7**
I tried to be everything you d ever want and sometimes
I even stood on my heart and stomped
F#
Now I m finally alone
     C#   **C#m**   **Fm**
And dressed for the show, but going nowhere

Fm   **C#**   **C#m**   **G#**
They don t need to see me crying

G#   **Cm7**
I ll get my little black dress on
                                    Fm
And if I put on my favorite song
                                        C#m
I m gonna dance until you re all gone
                                G#
I ll get my little black dress on

G#   **Cm7**
You came, lifted me up, but then you dropped a hurricane
                                    F#
Now I m fighting to find the ground again
To steady my feet
     C#   **C#m**
Get up off my knees and just remember

       G#
That I am more than just somebody s puppet
Cm7
I can find the cord and then I ll cut it
F#   **C#**   **C#m**
I stand a pretty good chance to dust myself off and dance

G#   **Cm7**
  I ll get my little black dress on

```
                      Fm
And if I put on my favorite song
                                  C#m
I m gonna dance until you re all gone
                          G#
I ll get my little black dress on
                      Cm7
I got my little black dress on
                                    Fm
And if I tell myself that nothing s wrong
                          C#m
This doesn t have to be a sad song
                          Fm
Not with my little black dress on

Fm                    C#                              G#
It s time to connect the dots and draw a different picture up
                          Eb                    Fm
And paint it with the colors of everything I ever was
                      C#                          G#
Return to the scene of the crime, the day I let the music die
                  Eb                      G#
And rewrite the final lines cause this time I

G#                        Cm7
I ll get my little black dress on
                          Fm
And if I put on my favorite song
                                  C#m
I m gonna dance until you re all gone
                          G#
I ll get my little black dress on
                      Cm7
I got my little black dress on
                                  Fm
And if I tell myself that nothing s wrong
                          C#m
This doesn t have to be a sad song
                          G#      Cm7
Not with my little black dress on
```
