

Once Upon Another Time

Sara Bareilles

D

Once upon another time

D

Somebody s hands who felt like mine

G

Turned the key and took a drive

D

Was free

D

Highway curve, the sun sank low

D

Buckley on the radio

G

Cigarette was burning slow

D

So breathe

D

Just yellow lines and tire marks

G

And sun-kissed skin and handle bars

D

A

And where I stood was where I was to be

D

No enemies to call my own

G

No porch light on to pull me home

D

And where I was is beautiful

D

A

Because I was free

D

Once upon another time

D

Before I knew which life was mine

G

D

Before I left the child behind me

D

I saw myself in summer nights

D

And stars lit up like candle light

G

D

I make my wish but mostly I believed

D

In yellow lines and tire marks

G

Sun-kissed skin and handle bars

D

A

And where I stood was where I was to be

D

Once upon another time

D

Decided nothing good in dying

G

So I would just keep on driving

D

A

D

Because I was free
