

One Sweet Love  
Sara Bareilles

D Em7 G D

D Em7  
Just about the time the shadows call  
G D  
I undress my mind and dare you to follow  
Em7  
Paint a portrait of my mystery  
G D  
Only close my eyes and you are here with me  
Em7  
A nameless face to think I see  
G D  
To sit and watch the waves with me till they re gone  
Em7 G  
A heart I d swear I d recognize is made out of  
C G  
My own devices.. Could I be wrong?

[CHORUS]

D Em7 G  
The time that I ve taken  
D Em7 G  
I pray is not wasted  
D Em7 G D Em7 G  
Have I already tasted my piece of one sweet love?

D Em7  
Sleepless nights you creep inside of me  
G D  
Paint your shadows on the breath that we share  
Em7  
You take more than just my sanity  
G D  
You take my reason not to care.  
Em7  
No ordinary wings I ll need  
G D  
The sky itself will carry me back to you  
Em7 G  
The things I dream that I can do I ll open up  
C  
The moon for you  
G  
Just come down soon

[CHORUS]

D                      Em7                      G  
 The time that I've taken  
 D                      Em7                      G  
 I pray is not wasted  
 D                      Em7                      G                      D                      Em7                      G  
 Have I already tasted my piece of one sweet love?  
 D                      Em7                      G                      D                      Em7                      G  
 Ready and waiting for a heart worth the breaking  
 D                      Em7                      G  
 But I'd settle for an honest mistake in the name of  
 D                      Em7                      G  
 One sweet love.
