When I m in the red

G

Listening to strangers inside my head

Verse 2: **C-G-Am-F**

I shake and I smile

Cause you said

Baby girl, it may take a while, but take the good from the bad

And never minds are never sure, so never leave them wanting more

What are you waiting for

How you love is who you are

Refrain 2: **Am-G-F**

I dive in and I sink in

And I find new colors to think in

Chorus: **C-G-Am-F**

I m fading in and out

What are you supposed to do save me know

From all of this danger you don t know how

And I ll find my way out

When I m in the red

Listening to strangers inside my head

The darkening angels beneath the bed

I still see everything you said

Crimson in red

Bridge: **Am-G-C-F**

In the distance is a line defining where I ve been

Rhe state I m in

And ever since it began to slip from my two hands I ve been

Taunting fires, touching wires, been believing liars

Everything they said

Painted in red

Painted in red

Painted in red

Chorus: **C-G-Am-F**

I am fading in and out
What are you gonna do save me know
From all of this danger you don t know how
I ll find my way out
When I m in the red
Listening to strangers inside my head
The darkening angels beneath the bed
I still see what you said

C-G-Am-F

What are you gonna do
No way for you to save me
What are you gonna do
Everything that you gave me
Is painted in red
