Stupid
Sarah McLachlan
[Brilliant wordsmith]
Intro
F Bb
Verse 1
Night lift up the shades
           Eb
                                   Cm
Let in the brilliant light of the morning
But steady there now for I am weak
                     Cm
                 \mathbf{E}\mathbf{b}
And starving for mercy
Sleep has left me alone
             Eb
To carry the weight of unravelling
Where we went wrong
                          Вb
It s all I can do to hang on
And keep me from falling
Into old familiar shoes
Chorus
                   Eb
    Gm
How stupid could I be
  Bb
A simpleton could see
     Gm
That you re no good for me
                    Bb
But you re the only one I see
Verse 2
Love has made me a fool
             Eb
It set me on fire and watched as I floundered
Unable to speak except to cry out
                  Eb
                       Cm
```

```
And wait for your answer
                            Вb
But you come around in your time
Speaking of fabulous places
Create an oasis
Dries up as soon as you re gone
You leave me here burning,
in this desert without you.
[Chorus]
Bridge
Everything changes
Eb
  Everything falls apart
I Can t stand to feel myself losing control
But deep in my senses I know
[Chorus] X2
```
