Sarah McLachlan - Wintersong

I thought that since it's getting near Christmas time it would be a good time to post song. Merry Christmas and enjoy!

*When Sarah plays this song on the piano, she usually hits each chord in the verse about times. However, on Bm's, she usually hits that 3 times and then changes to a D before to the next chord, so it looks like this: (Bm)(Bm)(Bm)(D). I've indicated where this with an asterisk *. You can decide whether you like better playing with or without this.
