                                C                      G
For all the times that we, We ever wouldn't be,
      Am                      F
Look at us baby, Look at us now.

                                C                      G
For everyday that I, Should have you by my side,
      Am                      F
We'll make it baby, Look at us now.

                                C                      G
For every night I pray, I know that you will stay,
      Am                      F
Look at us baby, Look at us now.

                                C                      G
Remembering the time, Our love was not so fine,
      Am                      F                      C
We made it baby, Look at us now. Baby look at us.
