

## Raindrops

Sash!

**Em**        **D**                    **Am**            **Em**  
Hold my hand letâ€™s chase the sun  
**Em**        **D**                    **Am**            **Em**  
We both know somethingâ€™s begun  
**Em**        **G**                    **D**                    **Am**  
Nothinâ€™ feels that real without you  
**Em**        **G**                    **D**                    **Am**  
Wanna learn so much about you

**Em**        **D**                    **Am**            **Em**  
Shining star Iâ€™ve seen your face  
**Em**        **D**                    **Am**            **Em**  
Everything falls into place  
**Em**        **G**                    **D**                    **Am**  
Nothing else seems to matter  
**Em**        **G**                    **D**                    **Am**  
You bring me to life

**Em**        **G**    **D**    **Am**  
Feels so lonely,  
**Em**        **G**    **D**    **Am**  
Wonâ€™t you show me,  
**Em**        **G**    **D**            **Am**  
Where I need to be,  
**Em**        **G**                    **D**                    **Am**  
You bring me to life.

**Em**        **G**                    **D**                    **Em**  
Feels like the raindrops on my skin,  
          **G**                    **D**                    **Em**  
You reach me somewhere deep within,  
          **G**                    **D**                    **Em** (hold)  
You make my body come alive,  
          **D**                    **Em**  
You bring me to life.

**Em**        **D**                    **Am**            **Em**  
I whisper things you never knew,  
**Em**        **D**                    **Am**            **Em**  
I canâ€™t believe that tonight Iâ€™m here with you,  
**Em**        **G**                    **D**                    **Am**  
You make my body come alive,  
**Em**        **G**                    **D**                    **Am**

You bring me to life.
