**Bbm Fm Fm**

**Bbm**

Into the night

**Fm**

My long suffering friend

**Bbm**

We ll be reborn again

**Fm**

Right here where everything ends

**Bbm**

Face to the sky

**Fm**

A trail of smoke in the air

**Bbm**

Pass into emptiness

**Fm**

New life s awaiting you there

**D#m**

Slave to some wretched old

**Fm**

Imagination of yesteryear

**D#m**

Now all that grows in the skulls

**Fm**

Of the living are flowers of fear

**Bbm**

The morning red

**Fm**

A sun-god calling you back

**Bbm**

Down through a thousand years

**Fm**

White embers whistle and crack

**D#m**

Await the dawn with her kiss of redemption,

**Fm**

My firebird!

**D#m**

You were the queen of the souls of all men

**Fm**

Before there was the w-o-r-d

Dedication to the queen of souls, her lost disciples

And when the fire s work is done

**Fm Bbm C#m F#m C#m**

Our time to be reborn

**Bbm**

By pagan streams

**Fm**

A wind whips the leaves from the trees

**Bbm**

And it is revealed to us

**Fm**

That we are dreams within dreams

Born from some wretched

Old imagination of yesteryear
