## Nightingale Saves the Day

I can t believe that no-one has tabbed this song so far! But here are the chords

The verses are basically E and G#m (with a little brush of F# just before changing

between the two (you can here it on the song) but I would say that if you are a novice then

just ignore the F#s in the verses (apart from the last one (which leads in to the chorus)

I spend ages lining up the chord names over the right lyrics - but in pasting it in to

this online submission for it sometimes messes about with that a bit - so apologies if

they appear a tiny bit off line - but I ve tried!

Anyway - this is of Stay What You Are (in my opinion the only genuinely perfect thing in

this word). Peace, Ben
