

**Ring Pop**

**Saves the Day**

The original song is in the key of B, but I transposed it to C to make it easier to learn. This song was released as an acoustic demo in February, but the official lyric video was released today (28AUG13). It s off of their self-titled album, soon to be released. These chords are how I play the song, it s a mix of the demo and the official track.

**C**

Before we live forever say

**G**

Together we can be okay

**C**

If it s the last thing that we do

**Am**

**C**

I wanna sing along with you

**Am**

Don t know where to begin

Just a couple of kids

**C**

When we met by the bar

**G**

At the side of the road

**Am**

It was only a dream

Saw you staring at me

**C**

What I said to myself

**G**

As I woke up to see

**C**

It was already late

**G** **Am**

Ten ten in neon green

**F**

And your number was on

**G** **C**

My right hand in red ink

**C**

Before we live forever say

**G**

Together we can be okay

**C**

If it s the last thing that we do

**Am** **C**

I wanna sing along with you

**Am**

Seven years will go by

In the blink of an eye

**C**

Suddenly here we are

**G**

Thinking what are the odds

**Am**

Born on opposite coasts

For the two of us both

**C**

Knowing in twenty years

**G**

We would not be alone

**C**

Might have made us a pair

**G** **Am**  
Of zen like two year olds

**F**  
With a couple of ring pops

**G** **C**  
No need to propose

**C**  
Before we live forever say

**G**  
Together we can be okay

**C**  
If it s the last thing that we do

**Am** **C**  
I wanna sing along with you

**C**  
And in seventy years

**G**  
When somehow thereâ€™s a way

**Am**  
To be frozen in time

**G** **C**  
Forever we will stay

**C**  
Before we live forever say

**G**  
Together we can be okay

**C**  
If it s the last thing that we do

**Am** **C**  
I wanna sing along with you

**C**  
If it s the last thing that we do
