Ring Pop Saves the Day

The original song is in the key of B, but I transposed it to C to make it easier

to learn. This song was released as an acoustic demo in February, but the official

lyric video was released today (28AUG13). It s off of their self-titled album, soon to be released. These chords are how I play the song, it s a mix of the demo

and the official track.

D

Before we live forever say

Α

Together we can be okay

D

If it s the last thing that we do

Bm D

I wanna sing along with you

Bm

Don t know where to begin

Just a couple of kids

D

When we met by the bar

Α

At the side of the road

Bm

It was only a dream

Saw you staring at me

D

What I said to myself

Α

As I woke up to see

D

It was already late
A Bm Ten ten in neon green
G And your number was on
A D My right hand in red ink

Bm D I wanna sing along with you
Bm Seven years will go by

Seven years will go by
Seven years will go by In the blink of an eye
Seven years will go by In the blink of an eye D Suddenly here we are
Seven years will go by In the blink of an eye D Suddenly here we are A Thinking what are the odds
Seven years will go by In the blink of an eye D Suddenly here we are A Thinking what are the odds Bm Born on opposite coasts
Seven years will go by In the blink of an eye D Suddenly here we are A Thinking what are the odds Bm Born on opposite coasts For the two of us both D

Might have made us a pair

```
Α
                       Bm
Of zen like two year olds
With a couple of ring pops
No need to propose
Before we live forever say
Together we can be okay
If it s the last thing that we do
  Bm
I wanna sing along with you
And in seventy years
When somehow thereâ\in<sup>™</sup>s a way
To be frozen in time
Forever we will stay
Before we live forever say
Together we can be okay
If it s the last thing that we do
I wanna sing along with you
If it s the last thing that we do
```

Bm D

I wanna sing along with you

Α

And hear you singing too

G

This is our song

A D

I'll always sing for you
