

**Princess Of The Night**  
**Saxon**

A primeira cifra tava totalmente errada... só não coloquei os solos porque estou trabalhando nele...

a música é fácil e os solos qualquer um com o ouvido bom tira... Valeu!

Lyrics

She used to be an iron horse  
Twenty years ago  
Used to bring the mail to me  
Through the ice and snow  
I sat alone and watched her  
Steaming through the night  
Nineteen tons of thunder  
Riding up the sky

She was the Princess of the night  
You saw the writing on the wall  
She was the Princess of the night  
I take a ride across the sky

Speed as much as lightning  
Engine working hard  
Furnace on the footplate  
Shining in the night  
Iron striking metal  
The sound of racing steel

It s all I ever wanna hear  
It s music to my ears

She was the?.

[Solo]

She was the?.

Nineteen tons of thunder  
Lighting up the sky  
Steaming right out pistons  
See the wheels flash by  
Hear the whistle blowing  
Stickin down the track  
If I ll ever have my way  
I bring the Princess back one day

She was the?.
