

Cemetery

Say Anything

These are very beginner chords and pretty much the same the whole way through.
This is
how I play it. There were no chords for this I could find on the internet so I
came up
with this, hope it works!

G

There s a cemetery deep below the sea

Cadd9

They re the spaces reserved for fools like me

Em

Tried to kill myself at least a dozen times

Cadd9

But nothin seemed to turn out right

G

Now I d rather wait a half a century

Cadd9

Soiling the bed of belligerent and wrinkly

Em

Even when I go blind and lose my mind

Cadd9

Nothing seemed to turn out right

G

If you want then when we die

Cadd9

We ll ascend to someplace way up high

Em

At the gate they ll show you through

Cadd9

If they ask me I m with youuuuu

G

You re in my body

Cadd9

You re, you re in my body

Em

You re in my body

D

That s where I think about you

SECOND VERSE AND CHORUS (exactly the same)

Em

Falling asleep

Cadd9

Asleep at the wheel, as I

Em

Approach that gate

Cadd9

With only your touch

I could die with you

Life would be enough

And so on...
