Bbm **Bbm**
You never wanted this

G#
So now I m taking it from you

G# **Bbm**
Back in the hands of the natives of this land

Bbm
You re a fallen star

G#
You know not what you are

G#
We re escaping through the tunnels deep beneath you

F# **G#**
People like you are why people like me exist
Persist to spit upon your wrist

F# **G#**
People like you are why people like me defy your lies
So here s your kiss goodbye

Intro again

Bbm **Bbm**
Don t you look at her

G#
Don t you even say a word

G# **Bbm**
You had your chance and you sold it secondhand

Bbm
Repressed and overdressed

G#
Brand a scarlet letter on your chest

G#

Here s where second best overtakes the rest

F#

G#

People like you are why people like me exist
Persist to spit upon your wrist

F#

G#

People like you are why people like me defy your lies
So here s your kiss goodbye

(Keep D through the bridge)
We see, we see right through
We see, we see right through you
We see, we see right through
We see right through you

(Here play Bm and switch it to D5, itâ€™s easy when you listen to the song)
A person s not more than a thing
The day his insides cease to sting
Yeah
Get on your gloves and take the ring
Vacate your throne, unholy king of kings
Whoah yeah

F#

G#

People like you are why people like me exist
Persist (persist) to spit upon your wrist

F#

G#

People like you are why people like me defy (defy) your lies (your lies)
So here s your kiss goodbye

People like you
People like you
People like you are why people defy your lies
So here s a kiss goodbye
