repeat 2 times

<b>G#m</b>		<b>G#m</b>
You never wanted this		
	<b>F#</b>	
So now I m taking it from you		
<b>F#</b>		<b>G#m</b>
Back in the hands of the natives of this land		
	<b>G#m</b>	
You re a fallen star		
	<b>F#</b>	
You know not what you are		
<b>F#</b>		
We re escaping through the tunnels deep beneath you		

<b>E</b>		<b>F#</b>
People like you are why people like me exist		
Persist to spit upon your wrist		
<b>E</b>		<b>F#</b>
People like you are why people like me defy your lies		
So here s your kiss goodbye		

Intro again

<b>G#m</b>		<b>G#m</b>
Don t you look at her		
	<b>F#</b>	
Don t you even say a word		
<b>F#</b>		<b>G#m</b>
You had your chance and you sold it secondhand		
	<b>G#m</b>	
Repressed and overdressed		
	<b>F#</b>	
Brand a scarlet letter on your chest		
<b>F#</b>		

Here s where second best overtakes the rest

**E** **F#**  
People like you are why people like me exist  
Persist to spit upon your wrist

**E** **F#**  
People like you are why people like me defy your lies  
So here s your kiss goodbye

(Keep D through the bridge)  
We see, we see right through  
We see, we see right through you  
We see, we see right through  
We see right through you

(Here play Bm and switch it to D5, itâ€™s easy when you listen to the song)  
A person s not more than a thing  
The day his insides cease to sting  
Yeah  
Get on your gloves and take the ring  
Vacate your throne, unholy king of kings  
Whoah yeah

**E** **F#**  
People like you are why people like me exist  
Persist (persist) to spit upon your wrist

**E** **F#**  
People like you are why people like me defy (defy) your lies (your lies)  
So here s your kiss goodbye

People like you  
People like you  
People like you are why people defy your lies  
So here s a kiss goodbye
