

Dimensions And Verticals

Say Hi to Your Mom

Intro: D F# x4

D F#
Lets say the world was a legal pad
D F#
and everything was two dimensional.
G A
But somehow you were the third coordinate
Bm A
and you were towering over our college rule.
G A
Would you draw me with your pencils and your pen,
G A
make me much prettier than I really am?
G A
And could you draw us with some picture perfect friends
Bm A/C#
if I chipped in for the ink?

D F#
Lets say you spilled all your coffee
D F#
on us while you weren't looking.
G A
And all our world was stained, awake and drowned.
Bm A
And all your doodling looked pretty foul.
G A
Would you draw me air bubbles so I could breathe?
G A
Or at least some chlorophyll making trees?
G A
If I got erased would you even still love me?
Bm A/C#
Or would you just draw yourself another he?
