The Last Time I Let You Go
SayWeCanFly

I learned the song by listening and looking at the chords from a video a fan
uploaded. Currently the song is
unreleased but I wanted to tab it so I can learn it as well. I had to write out
the lyrics aswell.

There s never a time when you are not in my arms
              D/B                          A/D
If heaven is waiting for me at the end
                  G                                  D/B
Look into my eyes and know you ll see me again

[Pre-Chorus]

I tried being honest
D/F#                        G
Didn t get what I wanted
                     A/D
And now Im wasting everything that I got left
D/B
You knew that I was a mess
D/F#                            G
You loved me nonetheless
A/D
I can clearly see that you re no longer feeling me,
D/B
Beside you.
G      D

[Chorus]
                       D/B
If ya need to let me go,
                         A/D
Tear my body from your soul

Would you just let me hold you?
G
Even if its the last time Ill ever know.
D                                            D/B
What it feels like everytime we lose control
                                        A/D
Oh the worlds like heaven when we re all alone.
                            G
Would you just let me hold you
                                  D
Even if it s the last time I let you go.
                            D/B
Go go, the last time I let you go
                                A/D
Even if it s the last time I let you go.
                          G
Go go, the last time I let you go
                              D
Even if it s the last time I let you go.

[Verse]
              D/B                        A/D
You are the ocean and I am the tide,
```

```
          G                        D
pulling you close to me every night
                D/B                        A/D
If ever your fighting to escape from my dark
                    G                     D/B
remember your body was designed in the stars.

[Pre-Chorus]

I tried being honest
D/F#                    G
Didn t get what I wanted
                  A/D
And now Im wasting everything that I got left
D/B
You knew that I was a mess
D/F#                    G
You loved me nonetheless
                                    D/B
I can clearly see that I was never meant to be
A/D
Beside you
G
Oh Oh

[Chorus]
D                        D/B
If ya need to let me go,
                    A/D
Tear my body from your soul

Would you just let me hold you?
G
Even if its the last time Ill ever know.
D                                    D/B
What it feels like everytime we lose control
                                    A/D
Oh the worlds like heaven when we re all alone.

Would you just let me hold you
G
Even if it s the last time I let you go.
D      D/B      A/D
Go go, the last time I let you go [x3]
G                                    D
Even if it s the last time I let you go.
