Am G/B C D
Back home to me

So much time without thinking
But everything keeps leading me back to you
Sometimes I think if there s any reason
To love you still

C Em D G/B
I miss the time, that we were together
C Em D G/B
The moon, the stars, creating our heaven
C Em D G/B Am
I ll wait for you , so be there as it may

G/B C D
There s no point in living this way, cos i d be here without you

cos I need you close to me
I want more than just a make believe
Our time is coming now, it s
easy to feel

Fate is trying hard to make us one
It s been written and so shall it be
This gap has made our love stronger
So you will see

I miss the time, I really miss the time, that we were together
The moon, the stars, the sky, creating our heaven
I ll wait for you, I long for you baby, so be there as it may
There s no point in living this way, cos i d be here without you
