

Before My Time
Scarlett Johansson

This are the (hopefully) decent chords that make up this beautiful song.
While it does sound more authentic on piano, the chords for guitar should do nicely.
This will also definitely strengthen your bar chord technique, since this relies heavily on it.

Intro: Db F# Db F# (These, along with the rest of the entire song, are slow and very rubato.
Listen to the song to get an idea of when the chords change.)
