Might Tell You Tonight
by the Scissor Sisters

E
When you re quiet, but your eyes
Am
Are saying everything I need to know

I want to burrow like a sparrow
C
Dodging alley cats and whiskers

Bb
Why do we talk in whispers?
F
Is it painful hearing voices ring

G
So early in the morning?

E
I ve been waiting for the day
Am
When I can throw away these numbers

That line my dresser drawers and cupboards
C
Start me over

Bb
Life seems so much slower
F
With your toothbrush by the mirror

G
Can I make it any clearer?

Chorus:

C **G** **F**
And I just might say it tonight

C **G** **F**
I just might say it tonight

C **G** **F**
I just might tell you tonight

C
That I love you

G **F**
And you should stay all my life

E

They ll tell you that you ll maybe make it

Am

If you just cut your clothes and change your hair

But I won t fuss and moan

C

bout what you wear

Bb

I feel so much better

F

When I read your dirty letters

G

Just wear your sweaters in the winter

E

Cause I wouldn t want you to get cold

Am

I hope that we re together when we re old

I would have sold all my possessions

C

Never took piano lessons

Bb

But baby you re a grand

F

And I will learn to play the good notes

G

And tune you up the best I can

Chorus:
