**Scissor Sisters**

Scissor Sisters - Sex and Violence (acoustic ver)  
Tab was transcribed from acoustic live performance in Kyiv

(orig. key C minor)  
Tuning - Standard

**Cm**                      **Bb**                      **Gm**                      **Fm**  
Oh, I need a witness to see the mess I've made  
**Cm**                      **Bb**                      **Gm**  
There's a broken lampshade, ashtrays, burnt floors, beds unmade  
**Cm**                      **Bb**                      **Gm**                      **Fm**  
Eyes sleeping if you are dream, dream of what I'm doing  
**Cm**                      **Bb**                      **Gm**  
To you, undo you, I'm through with you until I need a round of  
**Ab**                      **Bb**                      **Cm**                      **Gm/Fm\***  
Everytime I spend myself it never runs too low, woah  
**Ab**                      **Bb**  
I can't escape my need for

**Cm**  
Sex and violence  
**Bb**                                      **Ab**  
Never meant you see them hand in hand  
**Fm**  
One is with the other  
**Cm**                                      **Bb**  
The softest touches, deeper than the ocean  
**Ab**                                      **Gm**  
Give it to me faster, feel it, feel it  
**Cm**  
Sex and violence  
**Bb**                                      **Ab**  
Who is gonna make you cry?  
**Fm**  
(Sex and violence)

Oh, I was a real man stealing all the trade  
I was strong and self-made, well-paid, so groomed, persuasive  
You were walking home that night, too kind to be illusive  
Where do you live? What do you give? Who are you with?  
And how you getting home?  
Does everybody know right now exactly where you are? Woah  
Step inside's a step too far but

Sex and violence  
Hit me with a lover, burns so bright  
And one is just the other

Sweetest tastes, never gonna leave you  
Even when it hurts you, breathe it, breathe it

Violence, violence

\* Gm/Fm (plays like bridge with one part of Gm and second part of Fm on 8th fret), you  
can skip easily and left only Cm chord whole step.
