Hello again

You ve been alone awhile
Em **F** **G**
And I can use a friend

Am
Your shades are down
Em **F** **G**

And I ve been waiting here for you to come around
Am **F**
And it s not about forgiveness
Am **F** **Em**
Cause it s all about the love anyhow

G **Am**
We were born to fly

To reach beyond the sky
F
To carry on forever after

Em
You and I
G **Am**
You keep my faith alive

With you I m not afraid
F
To rise and fall and face disaster

Em
You and I
G **Am**
We were born to fly

Am
Take another breath
[...and so on...]
Just close your eyes my love let nature do the rest
Open up your wings
And with the wind we ll rise above to higher things
We ll forget about tomorrow

And we ll live another day today

We were born to fly
To reach beyond the sky
To carry on forever after
You and I
You keep my faith alive
With you I m not afraid
To rise and fall and face disaster
You and I
We were born to fly
We were born to fly

We were born to fly
To reach beyond the sky
To carry on forever after
You and I
You keep my faith alive
With you I m not afraid
To rise and fall and face disaster
You and I
We were born to fly
We were born to fly
We were born to fly
To reach beyond the sky
To carry on forever after
You and I
You keep my faith alive
With you I m not afraid
To rise and fall and face disaster
You and I
We were born to fly
