

**Caves In**  
**Scott James**

I saw this song on Youtube and absolutely fell in love with it. I searched for chords on the internet but I wasn't able to find any so I sat down and tried my best to get the chords out of the video. I know it's very simple and that this doesn't go into the details but I hope someone finds it useful!

Cave in - Scott James ([scottjamesmusic.com/home/](http://scottjamesmusic.com/home/))

**Bm - E - A x2**

**Bm**                **E**                **A**  
I awoke in my private place

**Bm**                **E**                **A**  
Somewhere deeper in the dark

**Bm**                **E**                **A**                **F#m**  
And I breathed an empty breath

**Bm**                                **E**                                **A**  
So I lied there till the night returned my heart

**Bm**                **E**                **A**  
Why does night refuse to stop

**Bm**                **E**                **A**  
Taking all our precious day?

**Bm**                **E**                **A**                **F#m**  
Why must I refuse to stop?

**Bm**    **E**                                **F#m**    **Abm**  
And my present makes my past ashamed

**Bm**    **E**                                **D**                **Dbm**    **Bm**    **A**  
And my present makes my past all a waste

**Dbm**                                **D**                                **A**  
And it wrenches my heart and it caves in my core

**Dbm**    **D**    **A**

Is the place that I've come the place where I once had sworn?

**Dbm** **D** **A** **F#m**  
And it wrenches my heart and it caves in my core

**Bm** **E** **D** **Dbm** **Bm** **A**  
From where have I come, and when will I return?

**Bm** **E** **A**  
Saw the sun soak through the clouds

**Bm** **E** **A**  
Like a fire buried in the snow

**Bm** **E** **A** **F#m**  
And it struck me all at once

**Bm** **E** **D** **A**  
An idea that I buried long ago

**Dbm** **D** **A**  
And it wrenches my heart and it caves in my core

**Dbm** **D** **A**  
Is the place that I've come the place where I once had sworn?

**Dbm** **D** **A** **F#m**  
And it wrenches my heart and it caves in my core

**Bm** **E** **A**  
From where have I come, and when will I return?

**Bm** **E** **D** **Dbm** **Bm** **A**  
From where have I come, and when will I return?
