D G D G

Now, I feel life getting hard
We re younger now, then you thought that we are
Living my life like a big movie star
Or where ya ganna break my
Where were you ganna take my
Don t mess with my heart

(pick up enthusiasm here)
Harder now then it was ever before
Keep a girl from knock n on another mans door
Used to do it right on the kitchen floor
Till she went and broke my
Now she s gone and took mY
Bitch she stepped on my heart

Some times, it seems like I m an addiction
She keeps comeing back for another perscription
Funny sometimes how I use my diction
To tell you how she broke my
To tell you where she took my
How she messed with my heart

(slow song back down here)
Lately it feels like I m getting older
My love for her at times still can smolder
All I want to do now is just hold her
Then I d let her take my
I d even let her break my
I d go and give her my heart
