

**Let Me Go**  
**Scott Stapp**

One thing before you played it out , On the chorus The chord is alike like DM but the only thing you have to do is keep the fingering the same except the index finger keep it on the same fret but just move it up one string so it;s on the second string, i do not know the name of that chord so what i m going to do is name it like this DM/.

It s not 100% but it sound alot like the song , questions, concerns, feel free to drop an email.God Bless You.
