Tilt

Bm7

Em7

He was so strong, he was so bold

Bm7

Em7

When they made him they broke the mold

Rm7

Em7

If he heads this way when the moon is slow

Gmaj7

Come over and pray they ll turn the buffalo

Em7

They ll turn the buffalo

There s a need to sleep in the shag of his stomach Slide around his eye with your love in tow
If he heads this way don t you say hello
Get out of the way, they ll turn the buffalo
They ll turn the buffalo

Bb? (**Bb D E F**)

Our town, our town, do love a stampede
Stampede by my old jacket in the park
Someday I ll pick it up look for the label and whisper
F#m

Tilt, ain t got no no no Tilt, got none at all Tilt, ain t got no no no

A mother waits as still as the moon light Standing in long grass with her cold cold nose What she feels so deep, she will never show Baby don t you weep, they ll turn the buffalo They ll turn the buffalo

Our town, our town...
