

**Look At You**  
**Screaming Trees**

**E**

Her ghost hides  
In my mind  
In the night

**A**

In a way she s haunting me

**E**

I m wanting her still  
Thru rose colored skies  
Or blue, blue moonlight

**A**

There s miracles on high

**E**

She s walking by

**A**

**B**

When I look at you I ve got a 2nd chance

**A**

**E**

Really need to have you now

**B**

**A**

**E**

One by one they fall it always breaks me down

The quiet  
Cuts me thru  
The candle burnt  
The knife has turned  
The pain withers  
Alive I know deep inside

When I look at you I ve got a second chance  
Really need to take it now  
One by one they fall it always breaks me down

REPEAT THE FIRST VERSE AND THEN THE CHORUS + SOME TIMES THE LAST SENTENCE.
