

Midnight Hour

SDIB

Capo 2

I d like to dedicate this song, to the Huku Lei-Lei

My Best Friend Y all

(C G Am F) x2

Remembering the time,

when you would make me see

and all I ever said,

was why can t that be me?

but I learned to trust in you my friend,

more than anything,

and thinking back to the summers on the homestead

when I first heard you sing

After the midnight hour,

you and I will fly together

after the midnight hour,

it will be just you, it will be just me

I need to say I love you

and I need to say I love you

but I need to say I love you

and I need to say I love you

but I learned to trust in you my friend,

more than anything,

**C** and thinking back to the summers on the homestead **G**
