

**Arms
Seabear**

Has a weird but easy strumming pattern.
Capo 2

G D Am A
You left your black gloves on my table
G D Am A
You left your dark horse in my stable
G D Am A
Thinking of a way, to get you to stay
G D Am A
And I promise to fight the wind and wait for you...
G D Am A
...are an owl, with tired eyes
G D Am A
I am a scarecrow in disguise
G D Am A
We often go out pacing
G D Am A hold
When all I want to do is stay inside and lookout the window... with you

G D Am A

G D Am A
There was a dead mouse in your arms
G D Am A
That was the moment that you lost your charm
G D Am A
An old bear paw, sitting in a jar
G D Am A hold
Under a tree that never grew any leaves

G D Am A
You shake my arms, you shake my hand
G D Am A
I fell asleep in your cobweb
G D Am A
And I m turning off all the lights tonight
G D Am A hold
Saw you in a crowded bar, pale with hungry eyes

G D Am A x4
